

## Rack Repairs and Inspections

Warehouse Storage Solutions is able to offer a full diagnostic inspection on your current storage system. We will inspect your system, write a report on our findings and repair any damage.

By carrying out 6 monthly inspections on installations we are able, by comparing reports, to identify any recurring damage problems thereby preventing further damage and associated costs.

Please [click here](#) to enquire for further details, or call us on 01423 819057 to discuss your requirements.
